### When choosing home health care

It is one of the most important decisions that you may someday have to make either for yourself, parent(s), child, spouse, or an extended family member.

Our caregivers are employed by our company and are selected on the basis of their compassion, reliability, and experience. Each employee must pass a thorough screening and interviewing process including a background check, fingerprinting and have a good driving record.

We respect each client as an

inherently valuable member of the community. We take a proactive approach in your homecare management, routinely providing you with in-home checks so that our care managers can listen to your changing needs. This creates a cohesive and consistent relationship between Chinook Home Health Care, our care companions and you. We treat each client as if they are members of our own family.
